10

Distàncies d'1 a la resta de vèrtexs:  $u \mid 1 \quad 2 \quad 3 \quad 4 \quad 5 \quad 6 \quad 7 \quad 8 \quad 9 \quad 10$ 

Vèrtexs del component connex d'1: {1,2,4,5,7,9}

Component connex d'1: vèrtexs i arestes en blau

El graf NO és connex perquè el cc d'1 és diferent del conjunt de vèrtexs (no hi ha cap cam d'1 als vèrtexs 3, 6, 8, 10). L'excentricitat d'1 és  $\infty$  (de fet, tots els vèrtexs tenen excentricitat  $\infty$ ). Per tant, tant el radi com el diàmetre és  $\infty$ .
